## Skills

Java, HTML5, CSS3, JavaScript, MySQL

## Education

Poojya Doddappa Appa college of Engineering | Kalaburagi, Karnataka

Electrical and Electronics Engineering | 06/2023

- Graduated with a commendable CGPA of 7.20, showcasing a strong commitment to academic excellence.
- Completed a comprehensive curriculum covering core concepts in electrical engineering, electronics, and related subjects.
- Acquired practical skills through hands-on projects, including Internet Of Things[IOT].
- Engaged in collaborative activities and projects, enhancing teamwork and communication skills.

## Projects

### E-commerce Website Development Project

*Led the design and implementation of a dynamic E-commerce platform using HTML, CSS, and JavaScript, delivering a seamless online shopping experience.*

- **Responsive UI/UX:** Developed a visually appealing and responsive front-end design using HTML5 and CSS3 for an enhanced user experience across devices.
- **Interactive Features:** Integrated JavaScript to implement dynamic functionalities, including a user-friendly shopping cart, search options, and secure user authentication.

### Weather Forecast Web Application Project

*Developed a user-friendly Weather Forecast Web Application utilizing HTML, CSS, and JavaScript, incorporating API integration for real-time weather data.*

- **Dynamic Features:** Implemented JavaScript to integrate API data, offering real-time weather updates, forecasts, and interactive features for enhanced user engagement.
- **Location-based Services:** Incorporated geolocation features to automatically detect and display weather information based on the user's current location, enhancing convenience.
- **Responsive Design:** Ensured responsiveness across various devices, creating a mobile-friendly design for users to access weather forecasts on the go.

## Experience

GESCOM | Kalaburagi, Karnataka

Intern | 09/2022 - 12/2022

- Acquired hands-on experience in the field of electrical systems and power distribution during an internship at GESCOM.
- Developed a comprehensive understanding of the functioning of the power distribution system through exposure to various processes and workflows.
- Gained practical knowledge in SCADA (Supervisory Control and Data Acquisition) systems, contributing to a deeper insight into real-time monitoring and control of electrical infrastructure.
- Collaborated with experienced professionals to comprehend industry best practices and standards.
